Costlier Than Yachting.

ler the excitement of the bargain grees, What J. J. Hill, the Great Rallroad Magnate, hunt than is spent in all the gam-Success. When you say that I have no statistics to prove this, I answer that I have common sense and have spent much time in city shops. I know, too, what I am capable of, and I am but a half-hearted hunter. I know what my friends do. It isn't for nothing that I have seen earnest young students of economics succumb to this hunting instinct and fare forth to buy 98-cent undergarments.

It is not only in the stores frequented by poor or uneducated women that I have seen the more brutal Instincts of the human race come to the surface. I have seen a charming elderly woman in a high class store snatch a dress length of gray voile from the hands of another elderly woman, and the reason I happened to see these sights was because I myself was at the sale looking at garments I didn't want and didn't need, and buying them.

The bargain chase, the shoppinggame passion or sport, life-work or recreation—for it may be any one of | It in cold water. these, according to the temperament of the woman-has American women well in its grip. Hardly one of us have mentioned.

A DETERMINED WOMAN

Finally Found a Food That Cyred Her.

"When I first read of the remarka Chicago traveler.

"I had been greatly afflicted with sudden attacks of cramps, nausea, and vomiting. Tried all sorts of remedies and physicians, but obtained only temporary relief. As soon as I began to use the new food the cramps disapeared and have never returned.

Round Dairy Barns. The Illinois Agricultural Experiment Station has sent to press a bulletin in which the economy of the round daffy barn is discussed at considerable length. Comparison of the cast of round dairy barns is discussed at conalderable length. Comparisons of the cost of round barns with rectangular ones, Including the amount and cost of material, the cost of construction. the amount of stock that can be sheltered, the convenience in storing, han dling, and distributing the feed, etc., are brought out very clearly.

The bulletins include cuts and plans of several round barns in actual use. an Itemized statement of the cost of a 60-foot round barn, and cuts showing s: "I was suddenly how the round barn at the agricultural taken with pain in college was built, etc. The conclusions college was built, etc. The conclusion arrived at by the author of the bulletin are that the round barn has a greaadvantage over a rectangular barn in convenience, strength and cheapness. It is found that the round barn is more convenient because of the compactness with which It is built and the case of getting the feed to the cows. Investigations show that the round barn costs from 34 to 58 per cent less than the rectangular barn containing the same amount of space and built of the same grade of material.
